DOE Seeks Small Businesses for Nationwide Environmental Management Contracts Acquisition

Cincinnati --The U.S. Department of Energy (DOE) today released a small business set-aside Request for Proposal (RFP) solicitation for the Office of Environmental Management (EM) Nationwide Multiple-Award Indefinite Delivery/Indefinite Quantity (ID/IQ) acquisition. DOE anticipates the award of multiple ID/IQ contracts as a result the set-aside RFP with an overall estimated ceiling of \$926 million. Proposals for the small business set-aside RFP are requested by September 21, 2009.

The set-aside RFP will establish contract vehicles to provide services in support of DOE-EM at various DOE or National Nuclear Security Administration (NNSA) sites. Services to be performed include:

- Environmental Remediation Services
- Deactivation, Decommissioning, Demolition, and Removal of contaminated facilities services
- Waste Management Services
- Regulatory Services

Two solicitations will be issued for the ID/IQ contracts, one set-aside for small business and one unrestricted. The set-aside RFP is being issued at this time and competition is limited to qualified small businesses only; an unrestricted RFP will be released at a later date and competition will be open to all qualified businesses, large and small.

DOE will hold a Pre-Proposal Conference for the small business set-aside RFP at the Environmental Management Consolidated Business Center in Cincinnati, Ohio, on Thursday, August 20, 2009. Specific details on the conference will be provided at a later date.

Additional information on the ID/IQ acquisition can be found at:
